Copy of letter Ref.No.2810/41-D1 dated 7th April 1941 from the Chief Conservator of Forests to the Secretary to Government, Development Department.

Sub: Boundaries _Frontier boundaries -Mysore -South Kanara -Discrepancy in the position of cairns -Rectification - proposal.

-5 of A copy of a letter R.C.No.1062/40-D dated the 24th January 1941 from the District Officer, South Kanara and its enclosures is submitted to Government.

2. In the circumstances explained by the District Forest Officer it is requested that Government be pleased to accord the necessary sanction with reference to paragraph 2 of Government Order No.Ms.1760, Revenue dated the 14th August 1936 after consulting the Government of Mysore.

Letter from Sri M.Kesavanunni Nayar, I.F.S., District Forest Officer, South Kanara, to the Chief Conservator of Forests, Madras, through the Collector of South Kanara and the Conservator of Forests, Ootacamund Circle, Ootacamund, No.R.C.1062/40-D, dated the 24th - January 1941.

Boundaries - Mysore South Kanara frontier - Discrepancy in the position of cairns - Orders to rectify - Requested -

It was noticed during inspection that cairns 919, 920 and 921 on the frontier line between Mysore and South Kanara lying along Ladibare Reserved Forest on the British side and Kodachadri Forest on Mysore side are not in their proper positions according to the descriptive memorandum and the boundary map. Extracts from the descriptive memorandum and boundary map showing in addition on the map the present positions of the cairns 919, 920 and 921 on the ground, are enclosed for perusal. It will be seen from the above that a new cairn has been built to the north of cairn 918 at a distance of 173 feet and numbered as 919 and old cairns 919 and 920 have been re-numbered as 920 and 921 respectively. The Old cairn No.921 was not found in its proper place which is believed to have been dis-lodged by way farers. Near the present cairn 921 which ought to be the place of cairn 920 according to the map and descriptive memorandum there is "M.S.K. and 921" chiselled on a living rock closeby. On close examination it was seen that the number 920 was corrected into 921. Further according to the descriptive -- memorandum cairns 921 and 922 are intervisible, but present cairns 921 and 922 on the ground are not intervisible. -- Further traces of a dilapidated cairn between the present cairns 921 and 922 are visible and its position roughly corresponds to cairn 921 shown on the boundary map.

2. The District Forest Officer of old Mangalore North Division who inspected the line in 1935 found the positions of these cairns on the ground to agree with the descriptive memorandum and boundary map. These discrepancies were - noticed by the District Forest Officer of old Mangalore -- North Division in 1938 during his next inspection. The District Forest Officer, Sagar of the Mysore Forest Department to whom references were made on this point, agrees with me that the present cairns 919, 920 and 921 are wrongly -- situated on the ground. A copy of his letter No.1228, dated the 24th April 1940 is enclosed.

3. A comparative statement of measurements from cairn to cairn of this portion of the line is given below for further elucidating the fact.

Cairns		Boundary map measurement in feet.	Measurement recorded by District Forest Officer in 1935 in feet.	Measurement recorded by District Forest Officer in 1938 in feet.	Remarks
From	To				
918	919	501	598	173	
919	920	1227	1232	697	
920	921	1135	1144	1345	
921	922	528	528	1500	

4. It is therefore suggested that the present cairn 919 on the ground should be removed and numbers 919 and 920 should be chiselled on the present cairn 920 and 921 and a new cairn with number 921 constructed at its old trace.

5. Under the G.O.No.Misc., 1760 Revenue Department dated the 14th August 1936, communicated with C.C.P.Misc., No.380 dated the 4th September 1936 rectification of the - above

has been built to the north of cairn No.918 and numbered as 919. My remarks regarding C.Nos.919, 920 and 921 are the same as yours.

The change is done without my knowledge and autho-rity and none of the subordinates of my Department have done it.

Since these cairns are all situated quite close to the path leading to Kodachadri Hill top, which is visited by many people every year, it is not possible for me to make out who has meddled with these cairns.

Note.

Subject: Survey - Frontier boundary - South Kanara District and Mysore. - Mis. papers for the Govt.

Ref: Board's Ref.F.1976/41.

It would seem that for the South Kanara Mysore boundary there are ratified vandyke prints available. These were once sent to C.O., with Board's U.O.Refce.G.2426/25-3 dated 29-9-25 and were returned to the Board with the reply of the Director of Survey. Finality was given to the settlement of the South Kanara Mysore frontier in G.O.Press 1156 Revenue dated 15-7-26 (B.P.Mis.1619 dated 22-7-26).

2/ If the Vandyke prints for the frontier are available in the Board's Office, these may kindly be sent for ~~ex~~ reference.

3/-No measurement records for this frontier are available in C.O., The boundary was - settled by arbitration. An Officer of the Survey of India was the Arbitrator. The measurement records were prepared under his supervision and finally embodied in the Vandyke prints. These would assist in verifying the discrepant R.F. limits ~~xx~~ now brought to light by the District Forest Officer, South Kanara.

MADRAS

GOVERNMENT OF MADRAS

Revenue Department,
No.1237 C/41-5.

26 SEP 1941

From

A. R. C. Westlake Esq., I.C.S.,
Secretary to the Government of Madras,

To

The Secretary to the Hon'ble the Resident in Mysore,
Bangalore.

Dated Fort St. George the 24th September 1941.

Sir,

Survey - Frontier boundary - South Kanara and Mysore - Discrepancy in the position of cairns.

The District Forest Officer, South Kanara has reported that during inspection of the frontier boundary line between Mysore and South Kanara lying along Kadibare Reserved Forest on the British side and Kodachadri Forest on the Mysore side, it has been found that Cairns Nos.919, 920 and 921 are not in their proper position. A sketch showing the correct position of the cairns according to the descriptive memorandum printed in G.O. No.1156, Revenue, dated 15th July 1926 and the present position of the cairns on the ground is enclosed. It will be seen from the sketch that a new cairn has been built to the north of Cairn 918 at a distance of 173 feet and numbered as 919 and old cairns 919 and 920 have been renumbered as 920 and 921 respectively. The old Cairn No.921 has not been found in its proper place and is believed to have been dislodged by way-farers. Near the present Cairn No.921 which ought to be the place of Cairn No.920 according to the descriptive memorandum, the words and figures, "M.S.K. and 921" are chiselled on a living rock closeby. On close examination it is found that the No.920 has been corrected into 921. Further according to the descriptive memorandum Cairns 921 and 922 are intervisible but the present Cairns 921 and 922 on the ground are not intervisible. Also traces of a dilapidated Cairn between the present Cairns 921 and 922 are visible and its position roughly corresponds to the original

Cairn No.921 shown in the sketch.

The District Forest Officer, Sagar Division of the Mysore State to whom a reference was made on this point by the District Forest Officer of the Government agrees with the latter that the present Cairns 919, 920 and 921 were wrongly situated on the ground. A copy of the letter of the District Forest Officer, Sagar Division, No.1228 dated 24th April 1940 is enclosed for reference.

2. The Government of Madras consider that the discrepancy in the position of the Cairns should be rectified. I am directed to request whether the Mysore Government agrees to the proposal and to bear half the cost of the work.

I have the honour to be,
Sir,
Your most obedient servant,

A.R.C.Westlake,

Secretary to Govt.

B. P. Mis 57 9 7.1.42

Communicated to the Collr. of S. Kanara, the A.D.C.O., and the Chief Conservator of Forests, Madras.

2. The attention of the Coll. is directed to the concluding portion of para 2 of the G.O. and he is requested to send a copy of the jointly attested verification sketch to the forwarded to the Govt. of Mysore Etc.

Survey. Frontier boundary South Kanara and Mysore - discrepancy in the position of Cairns.

From the A.D.C.O. No. Nil of 6.6.41

To A.S.

The connected file was sent U.O. to A.D.C.O. on 14/5/41 for remarks.

The A.D.C.O. requests that the Vandyke prints for the boundary in question may be sent to him, so that he may verify the discrepant R.F. limits brought to light by the District Forest Officer. He says that these prints were once sent to the Central Office with the Board's U.O. Ref. G. 2462/25-3 dated 29.9.25 and that they were returned to the Board with the reply of the Director of Survey.

2/ The Vandyke prints in question are not available in the records of this office. ~~It appears that~~ Certain records and sketches were sent to Govt. with the Board's Proceedings No. 454 of 26.2.26. These records might perhaps contain the prints now required by the A.D.C.O. The Govt. may be requested to send them, if they are available.

Note File F 1976/41

Survey - Frontier boundary - S. Kanara and Mysore - Discrepancy in the position of cairns

paper put up.
Mis 2939 dt 25.8.36 - G

{ Endt. from the Govt. Revenue Dept.
No 1237 C/41-1 dt 21.4.1941

A.S. (FCH)

From the report of the District Forest Officer, S. Kanara at pp 3-5 C/F it will be observed that a new cairn has been built to the north of cairn 918 at a distance of 173 feet and numbered as 919 and old cairns 919 and 920 have been renumbered as 920 and 921 respectively. It is also ~~reported~~ stated therein that the old cairn 921 was ~~not~~ found in a ~~ruinte~~ dilapidated condition ~~proper place~~. The ~~cairn~~ boundary was inspected in 1935 by the D.F.O of Old Mangalore North Division and the positions of the cairns in question were found to agree with the descriptive memo and boundary map. It was only in 1938 when the next inspection was made that the discrepancies in the positions of the cairns were noticed. The D.F.O. of the Mysore Forest Dept. has agreed with the D.F.O. S. Kanara that the cairns 919, 920 and 921 are wrongly situated. The reasons for the

change in the positions of the cairns could not be either given fly the D.F.O., South Kanara or by the D.F.O. of the Mysore State. The D.F.O. South Kanara has suggested that cairn 919 on the ground should be removed & numbers 919 + 920 chiselled on the present cairn 920 and 921 and a new cairn with number 921 Constructed at its old place. ~~But this requires the orders of the govts~~ both. The Collr. of S. Kanara and the Chief Conservator of Forests have agreed to this proposal. The Board may agree with them and request the Govt to accord the necessary sanction for rectifying the discrepancies after consulting the Mysore Govt with ref. to A.O. 1760 Rev. dt 14.8.36. for orders.

The boundary map in question is at p 11 CF.

7/5/41 Before reporting to Govt as above, the A.G.'s (Co) may be consulted W.O. about the proposal

8/5.

under report. The question now is whether the boundary agreed on by the Dt. Forest Officers of the respective Govts. should be given finality. The Collector has recommended that this may be done. But as this frontier is already a settled frontier there is no certainty that the boundary proposed for adoption by the respective Dt Forest Officers is co-terminous with the settled boundary.

The Collector may be asked if copies of the sketches relating to the settlement of the N/zone - S. Kanara frontier (in G.O. 1156 Rev dt/15.7.26) are available with in his office. If so, the Coll. may be requested to send them for reference. The sketches sent with Board's Ref. quoted above are herewith returned. ke 24/7

A.S. (L.R.II.)

Please see the notes of the A.D.C.O at pp. 4-5 N.F. Draft reference to the Collr. of S. Kanara calling for sketches is submitted for approval.

2/ The sketches received from the Govt.

with their memo No. 1237/C-41-2 of 11.7.41 may be resubmitted to them. Para 2 is added to the draft accordingly

Mr 8/8/41

E. 6/8/41

The discrepant boundary referred to is localised in Trace No 20 (N). The printed map shows the — Settled boundary between Mysore & South Canara. The proposals of the D.F.O. South Canara, Cf. 3. are to have the settled boundary

OFFICE OF THE BOARD OF REVENUE
20 AUG 1941

restored. This is also agreed to by the DFO Sagar M/ysore State. The discrepant boundary has to be rectified and this may be intimated to Govt for obtaining the consent of Mysore.

The work that is required to be done

(a) Demolish a cairn (west of Cairn 918), the cairn bearing the number 919.

(b) Reconstruct Cairn no 921 at its original site.

(c) Delete unwanted numbers & restore the proper numbering of cairns.

As no survey operations are involved, the work may be entrusted to the Forest Dept. Jointly attested verification sketches may be prepared in duplicate. (One copy to be furnished to Govt. through the Collector. One copy to go to the Mysore Govt in due course).

Presumably the cost of the work will be shared Equally between the two Govts.

A.S. (K.K. & J)

A.S. (L.R.I.)

With their endt. No. 1237 C/41.1 Revenue dated 21.4.1941 the Govt forwarded for the remarks of the Board the report of the D.F.O., South Kanara regarding the discrepancy in the position of Cairns on the frontier boundary line between the Mysore State and the S. Kanara Dt along Madibare Reserved Forest. From the report of the D.F.O. at pp 3-5 C.F. it will be observed that a new Cairn has been unauthorisedly built to the north of Cairn 918 at a distance of 173 feet and numbered as 919 and old Cairns 919 and 920 have been renumbered as 920 and 921 respectively. ~~In~~ the map at p11 of it is also stated ~~therein~~ that traces of ~~old Cairn 921~~ a dilapidated Cairn between the present Cairns 921 and 922 are visible and that its present position roughly corresponds to Cairn 921 shown on the boundary map. p 11 CF
The boundary was inspected in 1935 by para 2 at p 4
the D.F.O. of Old Mangalore North Dn.
and the positions of the Cairns in question
were found to agree with the descriptive p 7 CF
memo and boundary map. It was only p 11 CF
in 1938 when the next inspection was made that
the discrepancies in the positions of the para 2 at p 4 CF
Cairns were noticed. The D.F.O. of the

Mysore Forest Dept: has agreed with the D.F.O. S. Kanara that Cairns 919, 920 and 921 are wrongly situated. The reasons for the change in the position of the cairns could not be given either by the D.F.O., S. Kanara or by the D.F.O. of the Mysore State. The D.F.O., S. Kanara has suggested that cairn 919 on the ground should be removed and numbers 919 and 920 chiselled on the present cairns 920 and 921 and a new cairn with number 921 constructed at its old place. The Collr. of S. Kanara and the Chief Conservator of Forests have agreed to this proposal.

The A.D.C.O. who was asked to offer his remarks on the proposal wanted copies of the sketches relating to the settlement of the Mysore - S. Kanara boundary. Traces Nos 1-23 with an index relating to the boundary were obtained from the Collr. of S. Kanara and forwarded to the A.D.C.O.

The A.D.C.O. now reports that the discrepant boundary may be rectified and that this fact may be intimated to the Govt. for obtaining the Consent of the Mysore State. He states that as no survey operations are involved, the work may be entrusted to the forest Dept., and that

jointly attested verification sketches may be prepared in duplicate and furnished to the Govt. through the Collr., one copy to be sent to the Mysore Govt. in due course, cost after work being met equally by the 2 Govts

3/ ~~For orders whether~~ the Govt may be informed on the lines suggested by the A.D.C.O., and they may be requested to accord necessary sanction for rectifying the discrepancies after consulting the Mysore Govt. with reference to G.O. No. 1760 Revenue dated 14.8.1936.

For orders.
